DETAILED ACTION

Reasons for Allowance

1. The following is an examiner's statement of reasons for allowance:
 - a. Claims 1-7 are allowed because the prior art of record either alone or in combination neither discloses nor makes obvious the combination of a lithography system comprising among other features, a sensor for measuring a state of a development pattern of a photosensitive material after the development of the substrate and along with a judging system with particular function for independently evaluating the performance of the applying apparatus, the exposure apparatus and development apparatus, as recited in the instant claims .
 - b. Claims 8-12 are allowed since an exposure apparatus where (1) a first sensor is provided for measuring a physical quantity corresponding to a shape of a pattern of the photosensitive material after development of the substrate; (2) a second sensor is provided for measuring a position of the pattern of the photosensitive material after development of the substrate and (3) a judging system is provided for evaluating a state of the photosensitive material on the substrate based on the detected results of the first sensor and second sensor, is not disclosed in any prior arts of record, and appears to be non-obvious to a person skilled in the art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
